Week 8 and 9 - Individual Challenge - SQL Injection Fundamentals and SQLMap Essentials

The screenshot shows the 'SQL Injection Fundamentals' module page in the University of South Florida Academy Lab. The interface is dark-themed. At the top, there's a progress bar indicating 100% completion. The left sidebar contains navigation links: Dashboard, Leaderboard, My Profile, Explore, and a section for ACADEMY LAB with links to Main and CIS4200-Fall25. The main content area features a large title 'SQL Injection Fundamentals' with a sub-header 'MODULE' and a difficulty level 'Tier 0 - Medium - 8 hours'. Below the title, there's an 'INTRODUCTION' section with text about database management systems and SQL logic. To the right, there's a list of topics: Introduction, Databases, MySQL, and SQL Injections. The bottom of the page shows a 'DEDICATED LAB' section with links to Instructional DedL... and CIS4200-Fall25.
